LEAD BASED PAINT HAZARD PROGRAMS AND INFORMATION

1) Previously Mentioned Programs

Many of the programs previously identified can be utilized to help finance lead paint hazard reduction activities in residences occupied by low- and moderate-income households.

2) HUD Lead Hazard Reduction Program

The WI Division of Energy and WI Department of Health and Family Services, Division of Health, and the City of Milwaukee fund efforts to reduce the lead paint hazard exposure of children of low- and moderate-income families. Continued exposure to lead might result in severe health problems in children, including learning disabilities and behavior problems. Assistance can be provided to low- and moderate-income homeowners who have children under age six and who occupy houses with lead based paint hazards. Residential property owners whose buildings contain lead based paint and are occupied by low- and moderate-income tenants with children under age 6 may also be eligible for assistance. All pre-1978 housing presents the most risk. Key elements of the program include:

- Owner-occupied houses must be occupied by families at or below 80% of the county median income (CMI) to be eligible. At least 50% of rental properties must be occupied by, or made available to be occupied by, tenants with children under age 6 whose incomes do not exceed 50% of CMI. The balance of units must be occupied by, or made available to, tenants below 80% CMI with children under age 6.
- Children under age 6 living in the unit must have a blood test within 6 months prior to construction activities in order for the family to receive assistance. Priority will be given to households occupied by children that have high levels of lead in their blood.
- Hazard reduction activities will be determined by State certified risk assessors, and certified workers and contractors will perform the work.
- All units receiving assistance must pass federal clearance levels for lead in dust at the completion of the project.

8) Fair Housing

It is illegal to discriminate against people in housing based on race, color, sex, national origin, religion, disability, or family status according to both state and federal law. In Wisconsin it is also illegal to discriminate based on ancestry, marital status, age, sexual orientation, or lawful source of income for housing. In addition, some local fair housing laws include more bases of discrimination so it is worthwhile to check with the local equal rights division to see if local, state, or federal law applies more favorably to the specific situation.

15) Predatory Lending (including Predatory Appraisals)

Predatory lending is lending practices that take advantage of consumers, leading to excessive profits for the lender and little or no benefit to the consumer. These practices include, but are not limited to charging an unjustifiably high risk premium, excessive prepayment penalties, high fees, and lump-sum payment insurance premiums included as part of the loan. Predatory lenders often lend without regard to the consumer's ability to repay the loan. Predatory appraisals are false appraisals that value the property above its true value, which can result in a loss of equity and higher fees. Both predatory lending and appraisals cause increased foreclosures and endanger the stability of homeownership. Federal and state laws restrict terms of high-cost mortgage lending through the Homeowner's Protection Act and the Homeownership and Equity Protection Act (HOEPA).
